

# **'DEEP MISSION'**

ReSourcing Church Workshop – Feb 26

Presenter: Arnell Motz

*In Belcher's discussion of 'deep evangelism' we are challenged to think differently about evangelism. Does this also raise questions about broader issues affecting global missions?*

1. **Deciding who is 'in' and who is 'out'?** (e.g. doctrine & World Christianity)
  - Method of doing evangelism
  
  - How much should one believe in calling for a decision
  
2. **Should 'belonging precede believing'?** (value of thinking community)
  - Need for community with postmoderns (and collectivistic societies)
  
  - Where does the decision to follow Jesus come into the equation?
  
3. **Mission teams – whose agenda?** (ours or the national church)
  - Mission teams used to transform groups into spiritual communities
  
  - 'Deep evangelism' and changing the way we do missions
